EXPERIENCE

Personal project

May 2023 - Present

Portfolio Website Design:

- Created a portfolio website by blending design and programming.
- Utilized Figma, Photoshop, and Illustrator for the design.
- Ensured responsiveness for laptop, tablet, and iPhone, including a Dark Mode feature.
- Showcased creativity with icons, color schemes, fonts, grid systems, and typewriter effects.
- Employed React and Visual Studio Code for Frontend development.
- Implemented multilingual support using i18next and enabled page navigation with React Router.

FREELANCER

October 2022 - 2023

- I receive projects and work directly with clients.
- I self-train to improve my skills and undertake personal projects.

TNHH TMDV QUANG CAO LA ĐO

October 2019 - September 2022

- Worked directly with the supervisor to create visually appealing views for customers.
- Measured the dimensions of shelves, advertising signs, etc., to produce the final product.
- Managed order processing, quoting, and documentation.
- Generated and exported design files while ensuring print quality.
- Carried out company procedures.
- Successfully completed assigned tasks.
